Obi Wall Kenobe

April 22, 2008

By: Matthew Ray

You've got the huge flat screen, the surround sound is kicking and the new Wii is plugged in and ready to rock. The stage is set for the perfect Friday night of fun with your friends, but that's all to naught without the cherry on your home entertainment sundae--the Obi wall unit. Available at Moderne Life Interiors, this multi-talented piece has dozens of configuration options to fit

different design tastes, homes and accessories. Built from sturdy wood, this sleek unit can withstand the most chaotic of nights and still stand sharply the next morning. We wish we could say the same for ourselves.

Obi Wall Unit, \$1,800, Moderne Life Interiors
